FM Conway announces Joanne Conway as new Chair of the FM Conway Group

Leading infrastructure services company FM Conway has announced the appointment of Joanne Conway to the role of Chair of the FM Conway Group.

Joanne Conway, daughter of late Chairman and owner Michael Conway MBE, has worked in the business for 21 years across a number of pivotal roles, including as a member of the FM Conway board since 2011.

Over the past three years, Joanne has been responsible for the manufacturing arm of the business as the Managing Director of the Aggregates and Asphalt (A&A) division, with her tenure taking FM Conway forward to become the second largest asphalt producer in the South East of England.

The family-run business will now see Joanne follow in her late father's footsteps and take over his mantle as Chair in order to continue building on Michael Conway's great legacy, with Rhia Morgan moving into the role of Managing Director of A&A.

Rhia joined the business in 2016 and has extensive industry experience, including successfully leading the A&A commercial department since 2018 in which she has been responsible for leading the expansion of the business' asphalt sales and its focus on supplying innovative materials.

Speaking about the importance of her new role, Joanne Conway, Chair of the FM Conway Group, commented:

"I am honoured and privileged to take on the role of Chair. I have had the pleasure of watching our great business evolve and adapt over the past 40 years under my Father's vision and I am proud of the business that we are today. We are a family business with family values working towards delivering the best solutions for all by using the safest, innovative and most sustainable methods. And most importantly, with a workforce of people that care."

PRESS RELEASE

31 May 2022

Adam Green, FM Conway CEO, commented on the new appointment to FM Conway's Senior Leadership Team:

"I am delighted to welcome Joanne into her new role. We are a truly unique business with a strong family ethos that Joanne has a deep-rooted connection to. I have worked alongside Joanne and the Senior Leadership Team for the past three years now and we have demonstrated that we are a strong and robust team. We have an exciting future ahead and with new technologies and opportunities emerging I look forward to embracing them with Joanne as Chair."

About FM Conway

FM Conway is a leading infrastructure services company delivering vital services in transportation, the built environment and open spaces for communities and businesses.

We inspect, design, build, enhance and maintain essential infrastructure services for the community.

With 60 years' experience, we pride ourselves on being an industry leader and innovator, especially in recycling and reuse. We have a network of asphalt and aggregate recycling manufacturing plants serving London and the south of England, as well as a Thames side wharf and our own research and development laboratory. We have the ability to produce asphalt with a high recycled content and low carbon footprint.

We are a member of the British Safety Council, the Civil Engineering Contractors' Association, and the Quarry Products Association, as well as being BSI registered for environmental and quality management.
