

# SUREDRIVE®

SureDrive® is designed for driveways and smaller residential projects to prevent damage caused from tight turning

SureDrive® is a dense stone mastic asphalt (SMA) made with a 70/100 bitumen or polymer modified bitumen (PMB), available in a 6mm aggregate size. It is designed to withstand weather-related deformation caused by hot and cold temperatures

## RESIDENTIAL

# SUREDRIVE®

asphalt : simplified

## WHY CHOOSE SUREDRIVE®

- ✔ The SureDrive® range is a custom-designed solution for driveways, estates, and other residential projects, engineered to deliver a durable, long-lasting, and low-maintenance surface.
- ✔ SureDrive® can be manufactured in small quantities at our Conway Collect depots, making it ideal for smaller residential projects.
- ✔ SureDrive®+ further enhances the durability of our SureDrive® product by incorporating our in-house polymer modified bitumen (PMB).

## APPLICATION BENEFITS

- Ideal for car parks that require tight turning and heavy duty protection.

## DISCOVER THE FULL RANGE

**SureDrive® 6** - Stone Mastic Asphalt (SMA) Surface Course, Penetration Graded Bitumen 70/100

**SureDrive®+ 6** - Stone Mastic Asphalt (SMA) Surface Course, Polymer Modified Bitumen (PMB)

Both available in a Red Mix.

## APPLICATIONS

- DRIVEWAYS
- ESTATES
- RESIDENTIAL PROJECTS
- CAR PARKS

## GUARANTEED COMPLIANCE

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BS EN 12697 'Test Methods for Hot Mix Asphalt'.

Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.
