

SURELAYER®

SureLayer® is a single layer asphalt concrete surface application, designed to replace the traditional dual layer construction of surface and binder courses in a single pass

SureLayer® is a specially engineered asphalt concrete (AC) designed with our in-house polymer modified bitumen (PMB). It comes in aggregate sizes of 10mm, 14mm, and 20mm, and offers a variety of polished stone values (PSVs) to suit different performance needs

SUSTAINABLE / HIGHWAYS

SURELAYER®

WHY CHOOSE SURELAYER®

- ✔ SureLayer® is a single layer application that improves compaction and increases durability due to its monobloc construction, thereby improving long-term performance.

APPLICATION BENEFITS

- Laid at an increased thickness of 50mm - 70mm, SureLayer® is designed to replace surface and regulating or binder courses in a single pass.
- Applying SureLayer® reduces overall costs and installation times, as well as minimising disruption for road users. This is especially valuable on critically time controlled sites in busy urban and residential areas.

DISCOVER THE FULL RANGE

SureLayer® 10 - Asphalt Concrete (AC), Polymer Modified Bitumen (PMB), Limestone to 68 PSV (Polished Stone Value)

SureLayer® 14 - Asphalt Concrete (AC), Polymer Modified Bitumen (PMB), Limestone to 68 PSV (Polished Stone Value)

SureLayer® 20 - Asphalt Concrete (AC), Polymer Modified Bitumen (PMB), Limestone to 55 PSV (Polished Stone Value)

All available in a Warm Mix and Red mix.

SPEAK TO US ABOUT SURELAYER® E

SureLayer® E is a range of products using up to 60% recycled materials of a suitable PSV for a single layer application.

APPLICATIONS

- BUSY URBAN AREAS
- HIGHWAYS
- CAR PARKS

GUARANTEED COMPLIANCE

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BS EN 12697 'Test Methods for Hot Mix Asphalt'.

Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.
