

SURELIFE®

SureLife® is a range of asphalt products designed to work in hot box applications, providing longer product workability and carbon reduction without compromising on performance

SureLife® is an asphalt concrete (AC) designed with the latest binder technology, available in 6mm and 10mm aggregate surface courses and a 20mm binder course. It is made with penetration grade bitumen 40/60 - 70/100

REPAIR & REINSTATEMENT

SURELIFE®

WHY CHOOSE SURELIFE®

- ✔ SureLife® has been designed using the latest binder technology for longer-lasting storage and increased shelf life, making it ideal for utility and local authority contractors using static and mobile hot boxes.

APPLICATION BENEFITS

- SureLife® is designed to lower running costs by reducing wastage and limiting return trips to the asphalt plant.
- SureLife® products help improve workability, which aids compaction, quality of reinstatement, and life of the finished surface.
- Customers can reduce the temperature on their hot box, helping to reduce the cost of application.

DISCOVER THE FULL RANGE

SureLife® 6 - Asphalt Concrete (AC) Surface Course, Penetration Graded Bitumen 40/60 - 70/100

SureLife® 10 - Asphalt Concrete (AC) Surface Course, Penetration Graded Bitumen 40/60 - 70/100

SureLife® 20 - Asphalt Concrete (AC) Binder Course, Penetration Graded Bitumen 40/60 - 70/100

APPLICATIONS

- UTILITY REINSTATEMENT
- HIGHWAYS REPAIRS
- PERMANENT HOT ASPHALT REINSTATEMENT

GUARANTEED COMPLIANCE

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BS EN 12697 'Test Methods for Hot Mix Asphalt'.

Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.
