

AGGREGATES AND ASPHALT DIVISION

SUREGOLD[®]

A decorative pavement solution
designed to last the test of time

SUREGOLD®

SureGold is the ideal decorative pavement for stately homes, private estates, parklands and sports grounds, providing quality and durability with a high end finish.

Decorative pavement solutions are often only selected for aesthetic benefits, especially those that have a natural finish.

Endurance and versatility

SureGold combines the appearance of natural gravel which can be sympathetic to the surroundings with the ease of laying and performance of a conventional asphalt.

Certified performance

Once applied the surface of the asphalt - which can be supplied in either a Stone Mastic Asphalt (SMA) or Asphaltic Concrete (AC) can be exposed using a secondary process, or left for the elements to strip off the black bitumen and reveal a natural finish.

Guaranteed compliance

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BSEN12697 'Test Methods for Hot Mix Asphalt'. Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.

For detailed guidance on material selection, laying requirements and appropriate uses, contact our Aggregates and Asphalt division.
