# SUREPHALT<sup>®</sup>

A stone mastic asphalt product  
for long-term durability

# SUREPHALT®

*SurePhalt* is a stone mastic asphalt surface that meets the highest standards required by Clause 942 of the Highways England Specification for Highway Works.

*SurePhalt* is available in 10mm and 14mm nominal sizes and can be manufactured with penetration grade or polymer modified bitumen depending on specific requirements.

## Certified performance

Engineers and contractors use *SurePhalt* when they want guaranteed durability and retained texture, ensuring a safe and resilient road for many years to come.

*SurePhalt* is rigorously tested to the standards required by Clause 942 of the Highways England Specification for Highway Works. As a HAPAS-certified product, the manufacture of *SurePhalt* is highly regulated, with laboratory and in-situ product trials and inspections of our asphalt plants carried out by the British Board of Agrément on a regular basis.

## Guaranteed compliance

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BS EN 12697 'Test Methods for Hot Mix Asphalt'.

Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.

For detailed guidance on material selection, laying requirements and appropriate uses, contact our Aggregates and Asphalt division.
