

SURESPORT[®]

A range of asphalt mixtures
for use on any sporting surface

SURESPORT[®]

SureSport is a highly versatile range of asphalt mixtures designed for use on any sports surface, from athletics tracks to tennis courts.

SureSport is available in a range of sizes from 6mm to 20mm and can be manufactured with modified or unmodified bitumen depending on specific requirements.

Versatility and durability

Tennis courts, athletics tracks, all-weather football pitches – all will have individual requirements when it comes to surfacing, while multi-use games areas need to satisfy the demands of many different user groups.

SureSport can be customised to create a sporting surface that meets any and all requirements. Available in a wide range of sizes, all *SureSport* mixes provide a safe and durable surface layer which can be easily shaped to speed up drainage.

Guaranteed compliance

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BS EN 12697 'Test Methods for Hot Mix Asphalt'.

Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.

For detailed guidance on material selection, laying requirements and appropriate uses, contact our Aggregates and Asphalt division.
