

# SURETINT<sup>®</sup>

A durable, versatile asphalt product  
with a splash of colour

# SURETINT®

*SureTint* is a deep red-coloured asphalt mix for use in decorative applications – from footways and park roads to sports tracks and private homes.

## Aesthetics meets durability

*SureTint* provides an aesthetically pleasing alternative to naturally black asphalt surfaces. A deep red-coloured asphalt, *SureTint* has been used on prestigious, high-profile projects across London and the south east to bring venues, public spaces, roads and footways to life while improving visibility and navigation.

It is available in three formulations – stone mastic asphalt, hot rolled asphalt and asphaltic concrete – to ensure optimum performance and durability in any application.

## Guaranteed compliance

All mixtures comply fully with BS EN 13108 'Bituminous Mixtures' and the accompanying guidance notes (PD6691 Appendix B) as applicable.

Product testing complies fully with the requirements of BS EN 12697 'Test Methods for Hot Mix Asphalt'.

Product installation and any subsequent testing is also compliant with BS 5944987 'Asphalt for Roads and Other Paved Areas'.

For detailed guidance on material selection, laying requirements and appropriate uses, contact our Aggregates and Asphalt division.
